TÜRKİYE HALK BANKASI A.Ş.

**INDEPENDENT AUDITORS' REPORT
FOR THE PERIOD JANUARY 1 – SEPTEMBER 30, 2008**

To the Board of Directors of
Türkiye Halk Bankası A.Ş.
Ankara

We have reviewed the accompanying unconsolidated balance sheet of Türkiye Halk Bankası A.Ş. (the “Bank”) as of September 30, 2008 and the related statements of income, cash flow and shareholders’ equity for the period then ended. These financial statements are the responsibility of the Bank’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411 and the provisional article 1 of this Banking Act. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. Since a review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information, it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed a full scope audit and accordingly we do not express an audit opinion.

Based on our limited scope review, we are not aware of any material modifications that should be made to the financial position and the results of its operations of Türkiye Halk Bankası A.Ş. for the period ended September 30, 2008 for them to be in conformity with the prevailing accounting principles and standards set out as per the Article no. 37 of the Banking Act No: 5411 and other regulations, pronouncements in respect of accounting and financial reporting made by the BRSA.

SECTION I: GENERAL INFORMATION ABOUT THE BANK (cont'd)

IV. INFORMATION ABOUT PERSONS AND INSTITUTIONS THAT HAVE QUALIFIED SHARES ATTRIBUTABLE TO THE BANK

Except for the Prime Ministry Privatization Administration, no person or institute has any qualified shares attributable to the Bank.

V. SUMMARY ON THE BANK'S FUNCTIONS AND LINES OF ACTIVITY

a) General Information about the Bank:

Türkiye Halk Bankası Anonim Şirketi (the "Bank") was established in Turkey in accordance with the law no: 2284 in 1933 and began its operations in 1938 and still continues its activities as a public commercial bank.

b) Law numbered 4603 regarding the "Law on Türkiye Cumhuriyeti Ziraat Bankası, Türkiye Halk Bankası Anonim Şirketi and Türkiye Emlak Bankası Anonim Şirketi", was prepared within the framework of the macro-economic programme for the period 2000-2002. The purpose of the law is to modernize the operations of the banks to arrive at a point where the requirements of the international norms and international competition can be both reached and it also aims to sell the majority of the banks' shares to individuals or legal entities in the private sector. The Bank revised its charter of establishment, elected a new board of directors and increased its nominal capital from TRY 250.000 Thousand to TRY 1.250.000 Thousand in the extraordinary general assembly held on April 14, 2001 within the scope of the restructuring process, the Bank received government bonds in settlement of the accumulated specific duty losses and the Bank's whole specific duty loss receivable was thus eliminated as at April 30, 2001. In addition, a significant number of personnel were encouraged to sign new contracts and transferred to other government institutions.

c) According to Article 2.2 of Law No: 4603, subsequent to the completion of the restructuring procedures, the procedures involved in sale of the shares of the Bank were to be concluded under the provisions of Law No:4046 based on the "Regulation of Privatization Applications and Amendment of Some Laws and Decrees with the Force of Law". The procedures relating to restructuring and sale of the shares were to be completed within three years (until November 25, 2003) as of the effective date of the related law. However, by Law No: 5230 dated 31 July 2004, the term " 3 years" in Article 2.2. of Law numbered 4603 had been previously amended to "5 years" and by Law No: 5572 dated January 10, 2007 the related term was extended to "10 years". As a result of this amendment, the privatization period of the Bank has been prolonged. The Council of Ministers has the authority to extend this period by the half of that period for one time only. The Council of Ministers extended this five year period by the half of that period with the Decree numbered 2005/9841 and dated 27 December 2005. When the related Decree numbered 2006/69 and dated 11 August 2006 was in force, the Privatization High Council public shares were transferred to the Privatization Administration and 99.9% of the Bank shares are decided to be sold before May 25, 2008 using the block sale method. By the Privatization High Council's decree numbered 2006/4258 and dated August 11, 2006, 13th Department of Council of State decided to cease the execution of the Decree numbered 2006/69 dated 11 August 2006. Thereupon, legal regulation numbered 5572 has been executed and as per the decree of the Higher Council of Privatization numbered 2007/8 and dated February 5, 2007, up to 25% of the public shares that were previously transferred to the Privatization Administration on August 11, 2006, are decided to be privatized by a public offering and it is decided to be concluded by the end of 2007. The first phase of the privatization process of the Bank corresponding to 24.98% is completed in the first week of May 2007 and Halkbank shares have been traded on İstanbul Stock Exchange (ISE) as of May 10, 2007 with the base price of TRY 8,00.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

The unconsolidated financial statements, related notes and explanations in this report are prepared in accordance with the Turkish Accounting Standards and Communiqué on “Banks’ Accounting Practice and Maintaining Documents”.

Accounting policies applied and valuation methods used in the preparation of the financial statements are expressed in detail below.

Certain classifications have been made to the prior year financial statements to comply with the current year presentation Unless otherwise indicated, the term “Prior Period” used in the explanations and notes related to the Balance Sheet, Off-Balance Sheet Commitments and Profit Distribution are referred to December 31, 2007 and Statement of Income, Statement of Cash Flow and Statement of Changes in Shareholders’ Equity are referred to September 30, 2007 period.

II. EXPLANATIONS ON STRATEGY OF USE OF FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

1. The Bank’s Strategy On Financial Instruments:

Due to its historical mission, the Bank focuses on granting loans to SMEs and craftsmen. Funds, generated from the redemption and coupon interest payments of the special arrangement government securities in assets in decreasing funding costs, are directed to marketable securities obtained from the market conditions as a result of duty losses. In addition to the main fund source deposits, the Bank can raise funds from foreign borrowing.

The Bank follows the developments in the markets and uses funds raised in most yielding areas. The strategies of the Bank are evaluated in the weekly Asset and Liability Committee meeting.

2. The Bank’s Explanations on Foreign Currency Transactions:

In the statutory records of the Bank, transactions accounted in foreign currencies (currencies except for TRY) are converted into TRY by using the prevailing exchange rates at the transaction dates. Balance sheet foreign currency monetary asset and liability items are converted into TRY by using the prevailing exchange rate at the balance sheet date. Non-monetary items in foreign currencies carried at fair value are converted into TRY by using the exchange rates at the date of which the fair value is determined. Exchange differences arising from the conversions of monetary foreign currency items and collections of foreign currency transactions are reflected to the income statement. Foreign associate Demirhalkbank N.V. was revaluated as December 31, 2007 in terms of TRY in according to valuation report for the period and started to be traced with related TRY amount.

The financial statements of the foreign branches of the Bank are prepared in the currency of the primary economic environment in which the entity operates (functional currency). The financial statements of foreign branches are expressed in TRY which is the functional currency of the Bank and the presentation currency of the financial statements.

Assets and liabilities of the foreign branches of the Bank are converted into TRY by using the prevailing exchange rates at the balance sheet date. Income and expenses are converted by using the average exchange rates, unless a significant foreign currency movement occurs. Foreign currency gains and losses are recognized in the other profit reserves under the equity. These exchange differences are recognized as profit or loss when the foreign operation is disposed of. Goodwill and fair value adjustments arising from the purchase of foreign operations are treated as assets and liabilities of foreign operations and converted by using the closing exchange rates.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise stated.)

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

III. EXPLANATIONS ON FORWARD AND OPTION CONTRACTS AND DERIVATIVE INSTRUMENTS

Derivative transactions of the Bank are foreign currency swaps, forward foreign currency and interest transactions. The Bank has no derivative instruments decomposed from the main contract.

Derivative financial instruments are recorded with their fair values at the contract date and re-accounted with their fair values in the following reporting periods. Although some derivative transactions are qualified as economical hedging items, they do not meet all the definition requirements of hedge accounting items. Therefore, under the Turkish Accounting Standard No: 39 “Financial Instruments: Recognition and Measurement” (TAS 39), these derivative instruments are recognized as held for trading and gains and losses of these instruments are associated with the profit/loss statement.

IV. INTEREST INCOME AND EXPENSES

Interest income and expenses are recognized on an accrual basis using the effective interest method (the rate that equals the future cashflows of a financial asset or liability to its present net book value) in conformity with TAS 39 “Financial Instruments: Recognition and Measurement”.

In accordance with the related legislation, realized and unrealized interest accruals of the non-performing loans are reversed and interest income related to these loans are recorded as an interest income only when they are collected.

V. FEES AND COMMISSION INCOME AND EXPENSES

Fees and commission income/expenses are recognized on an accrual or cash basis depending on the nature of the transaction.

VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS

Financial instruments comprise financial assets, financial liabilities and derivative instruments. The financial assets are included in the balance sheet of the Bank, if the Bank is a legal party of these financial assets.

Financial assets mainly constitute the majority of the commercial activities and operations of the Bank. These instruments have the ability to expose, affect and diminish the risks of liquidity, credit and interest in the financial statements.

Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arms length transaction. Market value is the amount obtainable from the sale or payable on the acquisition of a financial instrument in an active market, if one exists.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise stated.)

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS (cont'd)

The estimated fair values of financial assets have been determined by the Bank using the available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to develop the estimated fair value. Hence, estimations presented in this report may not be same with the prices in the current market conditions in the case of assets disposals. Book values of some financial assets (which equals to their costs) are assumed to approximate to their fair values due to their short term nature.

The methods and assumptions used in determining the reasonable estimated values of all of the financial instruments are mentioned below.

1. Cash and Bank:

Cash and bank balances in foreign currencies are valued by using the Bank's current period end exchange rates. Cash balances in TRY, foreign currency balances and bank balances on the balance sheet are the estimated fair values of these assets.

2. Marketable Securities:

a. Financial Assets at Fair Value Through Profit and Loss

a.1. Financial Assets Held For Trading:

Financial assets held for trading are securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio with a pattern of short-term profit taking.

Financial Assets Held For Trading are presented in the balance sheet with their fair values and are subject to valuation at fair values after the initial recognition. If a price does not occur in an active market, fair value cannot be reliably determined and "Amortized Value" is determined as the fair value using the internal rate of return. Valuation gains or losses are recognized in the profit/loss accounts. Interests gained from the retention of Held For Trading Financial Assets are recognized under the interest income and dividends gained is recognized under the dividend income in the income statement. If these assets are disposed of prior to their maturity periods, loss or gain from the disposal is recognized in the income statement by using Interest Income/Expense accounts and Profit/Loss from the Capital Market Operations under the scope of Uniform Chart of Accounts.

a.2. Financial Assets At Fair Value Through Profit and Loss:

Financial Assets At Fair Value Through Profit and Loss represent the financial assets at fair value through profit and loss at the initial recognition and those are not obtained for trading purposes. Recognition of fair value differences of those assets are similar to the financial asset held for trading.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS (cont'd)

2. Marketable Securities: (cont'd)

b. Investments Held to Maturity, Financial Assets Available for Sale

b.1. Investments Held to Maturity include securities with fixed or determinable payments and fixed maturity carried at fair value through profit and loss at the initial recognition where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and available for sale non-derivative assets except for bank loans and receivables. Investments held to maturity with the initial recognition at fair value including transaction costs are subject to valuation with their discounted cost value by using the internal rate of return method less provision for any impairment, if any. Interest income from investments held to maturity are recognized in the income statement as an interest income. There are no financial assets that are classified by the Bank as investments held to maturity, however, they cannot be classified under this classification for two years for not satisfying the requirements of the related classification.

b.2. Financial assets available for sale represent non-derivative financial assets except for bank loans and receivables, investments held to maturity and financial assets at fair value through profit and loss. Initial recognition and subsequent valuation of financial assets available for sale are performed based on the fair value including transaction costs. The amount arising from the difference between cost and amortized value is recognized through profit and loss by using the internal rate of return. If a price does not occur in an active market, fair value cannot be reliably determined and "Amortized Value" is determined as the fair value using the internal rate of return. Unrealized gains and losses arising from the fluctuations in fair value of the financial assets available for sale are not recognized in the income statement, they are recognized in the "Marketable Securities Revaluation Fund" until the disposal, sale, redemption or incurring loss of those assets. Fair value differences accumulated in equity accounts arising from the application of fair value in the case of the collection from the redemption or sale of the related assets are reflected to the income statement.

VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS (cont'd)

3. Loans and Receivables:

Loans and receivables represent unquoted financial assets in an active market that provide money, goods or services to the debtor with fixed or determinable payments.

Loans and receivables are initially recognized with their fair values including settlement costs and carried at their amortized costs calculated using the internal rate of return at the subsequent recognition. Transaction fees, dues and other expenses paid for loan guarantees are recognized under the profit and loss accounts.

Personal and corporate cash loans are recognized under the accounts specified by the Uniform Chart of Accounts and Explanations with their original balances based on their context.

Foreign currency indexed personal and corporate loans are followed at TRY accounts after converting into TRY by using the opening exchange rates. At the subsequent periods, increases and decreases in the loan capital are recognized under the foreign currency income and expense accounts in the income statement depending on foreign currency rates being higher or lower than opening date rates. Repayments are calculated using the exchange rates at the repayment dates and exchange differences are recognized under the foreign currency income and expense accounts in the income statement.

Non-performing loans are classified in accordance with the regulation on “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette No: 26333 dated November 1, 2006 and specific provisions are allocated for those loans. Specific provisions are reflected to “820/821 Provisions and Impairment Expenses 82000/82100 Specific Provisions Expenses” account. Provisions released in same year are recognized as a credit movement under the “Provision Expenses”, released portion of the previous period provisions are recognized under the “Other Operating Income” account.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

VII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

3. Loans and Receivables: (cont'd)

At each balance sheet date, the Bank reviews the carrying amounts of its financial asset or group of financial assets whether there is an objective indication that those assets have suffered an impairment loss. If such indication exists, the Bank determines the related impairment amount.

A financial asset or a group of financial asset is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of their high probability of incurrence, future expected losses are not recognized.

Impairment losses attributable to the investments held to maturity are measured as the difference between the present value of estimated future cashflows discounted using the original interest rate of financial asset and the book value of asset. The related difference is recognized as a loss and it decreases the book value of the financial asset. At subsequent periods, if the impairment loss amount decreases, impairment loss recognized is reversed.

When a decline occurs in the fair value of the financial assets at fair value through profit and loss or available for sale of which value decreases and increases are recognized in equity, the cumulative loss that had been recognized directly in equity shall be removed from equity and recognized in period profit or loss. If, in a subsequent period, the fair value of the related asset increases, the impairment loss shall be reversed, with the amount of the reversal recognized in profit or loss.

For loans and receivables; the Bank’s management performs consistent loan portfolio reviews and if any doubts on the collectibility of the loans arise, the related loans are classified in accordance with legislation on “Determining the Nature of Loans and Receivables and Principles and Procedures on the Allocation of Loan and Receivable Provisions” published in the Official Gazette numbered 26333 and dated November 1, 2006. The Bank does not limit the provision amount for the non-performing loans recognized before January 1, 2008 with the minimum rates defined in the related regulation and allocates specific provision for this kind of loan amounts in full and they are recognized in the statement of profit/loss. Bank sets specific provision for non-performing loans recognized after January 1, 2008 by discounting the collateral amount, calculated in accordance with the transformation rates defined in the Article 10 of the related legislation, from the follow-up amount and setting 100% provision for the remaining follow-up risk amount excluding the suretyship type of collaterals defined in the Article 9 of the related legislation. Specific provision rate for the standing non-cash loans extended to follow-up entities in order to cash ensuring is 100%, specific provision rate for other non-cash loans is 50%. Collections made related to those loans are offset against the capital and interest collections are recognized under the “Interest Received from Non-performing Loans” item of the income statement.

In accordance with the provisions of the related legislation, general loan provisions are provided by the Bank in addition to specific provisions.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

VIII. OFFSETTING THE FINANCIAL ASSETS AND LIABILITIES

A financial asset and a financial liability shall be offset and the net amount presented in the balance sheet when, and only when a party currently has a legally enforceable right to set off the recognized amounts or intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

IX. SALES AND REPURCHASE AGREEMENTS (REPOS) AND TRANSACTIONS ON SECURITIES LOANED

Marketable securities subject to repurchase agreements are classified under “Securities at fair value through profit or loss” or “Securities available for sale” in the Bank’s portfolio and they are valued according to the valuation principles of the related portfolios.

Funds obtained from the repurchase agreements are recognized under the “Funds From Repurchase Transactions” account in liabilities. For the portion of the difference between the sale and repurchase prices determined by the repo agreements for the period; expense accrual is calculated using the internal rate of return method.

Reverse repo transactions are recognized under the “Receivables From Reverse Repo Transactions” account. For the portion of the difference between the purchase and resale prices determined by the reverse repo agreements for the period; income accrual is calculated using the internal rate of return method. As of September 30, 2008 bank has no reverse repo transactions. (December 31, 2007: TRY 50.025 Thousand)

X. EXPLANATIONS ON TANGIBLE FIXED ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Assets that meet the criteria to be classified as held for sale are measured at the lower of its carrying amount and fair value less costs to sell. Depreciation of such assets is ceased and they are presented separately in the balance sheet. In order to classify a tangible fixed asset as held for sale, the asset (or the disposal group) should be available for an immediate sale in its present condition subject to the terms of any regular sales of such assets (or such disposal groups) and the sale should be highly probable. For a highly probable sale, the appropriate level of management must be committed to a plan to sell the asset (or the disposal group), and an active programme to complete the plan should be initiated to locate a customer. Also, the asset (or the disposal group) should have an active market sale value, which is a reasonable value in relation to its current fair value. Events or circumstances may extend the completion of the sale more than one year. Such assets are still classified as held for sale if there is sufficient evidence that the delay in the sale process is due to the events and circumstances occurred beyond the control of the entity or the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a component of a bank that either has been disposed of, or is classified as held for sale. Gains or losses relating to discontinued operations are presented separately in the income statement.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

XI. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As at the balance sheet date, there is no goodwill recorded in the unconsolidated balance sheet of the Bank.

Intangible assets that are purchased prior to January 1, 2005 are carried at their restated historical costs and intangible assets that are purchased in the subsequent periods are carried at their historical, less any accumulated amortisation and any impairment losses. Intangible assets are amortized by using the straight line method based on their useful lives. Amortization method and period are assessed periodically at the end of each year. Intangible assets consist of establishment/formation expenses, software expenses and they are amortized by using the straight line method over 5 years. Leasehold improvements are depreciated over the lease period by straight line method. There is no significant change in the accounting estimates expected or to be expected having a significant effect on the amortisation method, amortization period or residual value.

XII. EXPLANATIONS ON PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment that are purchased prior to January 1, 2005 are carried at their December 31, 2004 dated restated costs and property, plant and equipment that are purchased in the subsequent periods are carried at cost, less any accumulated depreciation and any impairment losses.

Property, plant and equipment are amortized by using the straight line method during their useful lives.

Gain or loss arising from the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of that asset and is recognized in profit or loss.

Ordinary maintenance and repair expenses of property, plant and equipmet items are recognized as expenses.

There are no mortgages, pledges or similar incumbrances designated for the property, plant and equipment.

Estimated useful lives of property, plant and equipment are as follows:

	Estimated Useful Lives (Year)	Depreciation Rate
Buildings	50	% 2
Safe-deposit boxes	50	% 2
Other movable properties	2-25	% 4-50
Assets held under financial leases	4-5	% 20-25

There is no change expected in the current period or to be expected in the subsequent periods to have a significant effect on the accounting estimates.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

XIII. EXPLANATIONS ON LEASING TRANSACTIONS

Assets acquired under financial leases are carried at the lower of their fair values or amortized value of the lease payments. Leasing payables are recognized as liabilities in the balance sheet while the interest payable portion of the payables are recognized as a deferred amount of interest. Assets held under financial leases are recognized under the property, plant and equipment (movable properties) account and are depreciated by using the straight line method.

The Bank does not participate in the financial leasing transactions as a “lessor”.

Operational lease transactions are recognized in line with the related agreement on an accrual basis.

XIV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES

A provision should be recognized in the financial statements when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the Bank’s management for expenditure required to settle the present obligation at the balance sheet date and amortized to its present value if the amount is material.

XV. EXPLANATIONS ON EMPLOYEE BENEFIT LIABILITIES

Employee benefits liabilities are recognised in accordance with the Turkish Accounting Standard No:19 “Employee Benefits”. According to related legislation and union contracts, the Bank is required to make lump sum retirement payments to employees who has completed one year of service, is called up for military service, dies, resigns, retires or whose employment is terminated without due cause, or for female employees; who resigns subsequent to her marriage within one year. The Bank provides provision by estimating the present value of the future retirement pay liability. The retirement pay provision of the Bank has been determined by the actuarial report of an indepent valuation company.

Pamukbank Employee Pension Fund, T. Ziraat Bankası and T. Halk Bankası Employee Pension Fund Foundations were founded in accordance with the provisional article 20 of the Social Insurance Act (SIA) No: 506 and their members include employees of the Bank as well. Provisional article 23 of the Banking Act No: 5411 requires the Bank’s pension funds founded in the scope of SIA to be transferred to the Social Insurance Institution (SII) within 3 years subsequent to the publishing date of the act. The procedure and essentials for the transfer were determined by the Council of Ministers’ decision dated November 30, 2006 and numbered 2006/11345 and accordingly, both pension fund foundations would have been transferred to SSI. However, with the decree of the Constitutional Court numbered E.2005/139, K.2007/13 and K.2007/33 published in the Official Gazette dated March 31, 2007 and numbered 26479, the first paragraph of the temporary first article of the provisional article 23 of the Banking Act No: 5411 is cancelled and the execution has been ceased starting from the date the decree is published.

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

XV. EXPLANATIONS ON EMPLOYEE BENEFIT LIABILITIES (cont'd)

In accordance with the principles set out by the Council of Ministers' decision, numbered 2006/11345 published in the Official Gazette numbered 26377 and dated December 15, 2006 regarding the determination of procedures and principles for the application of transfer requirements and based on the technical balance sheet report prepared using a 10.24% of technical interest rate, for Pamukbank Employee Pension Fund TRY 9.251 Thousand of technical provision has been allocated as of December 31,2006 and kept in financial statements as of December 31, 2007. In accordance with the actuarial report of the Pamukbank Employee Pension prepared in the current period, no technical deficit has been reported and thus some portion of the related provision is transferred to free provision and the remaining portion is cancelled as of March 31, 2008. No technical deficit for T.C. Ziraat Bankası and T. Halk Bankası Employee Pension Fund has been reported.

In accordance with the Act No: 5754 "Act about the amendments in Social Security and General Health Insurance Act and Some of Acts and Decrees" published in the Official Gazette dated May 8, 2008 and numbered 26870, bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the income and expenses of the transferred funds will be considered by the insurance branches and the cash value of the liabilities will be calculated with the actuarial interest rate 9,8%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to fulfill by the employer entities of the funds and its participants.

XVI. EXPLANATIONS ON TAXATION

In accordance with the Article 32 of the Corporate Tax Law No: 5520, the corporate tax rate is calculated at the rate of 20%. The tax legislation requires advance tax of 20% to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the corporate tax liability for the year. The temporary tax for the first six months of 2008 was paid in August 2008 which will be offset against the current period's corporate tax payable.

Tax expense is the sum of the current tax expense and deferred tax charge. Current year tax liability is calculated over taxable profit. Taxable profit is different from the profit in the income statement since taxable income or deductible expenses for the following years and non-taxable and non-deductible items are excluded.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise stated.)

SECTION III: EXPLANATIONS ON ACCOUNTING POLICIES (cont'd)

XVI. EXPLANATIONS ON TAXATION (cont'd)

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from the initial recognition of other assets and liabilities other than goodwill or business combination in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. An entity shall reduce the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Prepaid corporation taxes and corporation tax liabilities are offset as they relate to income taxes levied by the same taxation authority. Deferred tax assets and liabilities are also offset.

XVII. ADDITIONAL EXPLANATIONS ON BORROWINGS

The Bank borrows funds from domestic and foreign institutions when needed. These borrowing activities are recognized at fair value including the acquisition costs at the transaction date and they are valued at amortized costs by using the internal rate of return method.

Interest rate and liquidity risks are prevented by having assets with shorter or equal maturity terms than borrowing instruments such as syndication, securitisation and borrowing with collateral and bears higher interest than costs of those instruments.

Also, asset composition is designed in accordance with the fixed/variable cost nature of borrowing instruments.

There are no convertible bonds or debt instruments issued.

XVIII. EXPLANATIONS ON SHARES AND SHARE ISSUE

Share issuance related to costs are recognized as expenses. Dividend income related with the equity shares are determined by the General Assembly of the Bank.

The Bank has not issued any shares during 2008. In accordance with the decree of the Privatization High Council dated February 5, 2007 and numbered 2007/8, the process of public offering for the 25% of shares pertaining to the Privatization Administration is completed and the Bank shares are registered to the Board with the decree of the Capital Markets Board dated April 27, 2007 and numbered 23/271, and the shares are traded on the İstanbul Stock Exchange as of May 10, 2007.

XIX. BILL GUARANTEES AND ACCEPTANCES

Bill guarantees and acceptances are realized simultaneously with the customer payments and they are presented as possible liabilities and commitments in the off-balance sheet accounts.

XX. EXPLANATIONS ON GOVERNMENT INCENTIVES

There are no government incentives utilized by the Bank.

XXI. EXPLANATIONS ON SEGMENT REPORTING

Segment reporting focuses on business segment considering the main source and nature of the risks and returns of the Bank. The Bank operates on mainly corporate banking, retail/personal banking and investment banking.

The report concerning parts of Bank's business segmentation and related information is explained in section four, disclosure numbered VIII .

XXII. EXPLANATIONS ON OTHER MATTERS

Associates and Subsidiaries:

For TRY associates and subsidiaries, initially, the additions of funds (such as revaluation fund increase) are deducted from the cost of the associate and subsidiary (the additions of these funds to the capital is permitted for these companies) and later, these costs are indexed based on the capital increase collection dates until December 31, 2004. As of December 31, 2007, a valuation study has been performed by an independent company for certain associates and subsidiaries; Kobi A.Ş., Halk Leasing, Birlik Sigorta, Birlik Hayat Sigorta and Halk Yatırım. For those entities that have value increase, the provision set for impairment in the prior periods were cancelled. In accordance with the Turkish Accounting Standards, as of 2007 year end, a valuation study has also been performed for the Bank's foreign currency associate Demirhalkbank N.V., operating in Netherlands, and the calculated value increase as a result of valuation study has been recorded under shareholders' equity.

SECTION IV: INFORMATION ON UNCONSOLIDATED FINANCIAL STRUCTURE

**I. EXPLANATIONS RELATED TO THE UNCONSOLIDATED CAPITAL
ADEQUACY RATIO**

Risk measurement methods used in the determination of unconsolidated capital adequacy standard ratio; Capital Adequacy Standard Ratio calculation is performed in accordance with the Communiqué on “Measurement and Assessment of the Capital Adequacy of Banks”, which was published in the Official Gazette numbered 26333 on November 1, 2006. As of September 30, 2008, the Bank’s unconsolidated capital adequacy ratio calculated based on the essentials of the related communiqué is 14,90%. (December 31, 2007 : 20,03%)

In calculating the amounts subject to credit risk, the Bank generally evaluates its loans according to their collateral classes based on the relevant risk weights. However, risk rate for fund loans for which the Bank recognises is 0% and credit cards and cooperative loans is 100% due to having “suretyship” collateral type.

In the calculation of capital adequacy standard ratio, information prepared in accordance with the legislation on recording and accounting system is used. Additionally, market risk amount is calculated in accordance with the communiqué on the "Internal Control and Risk Management Systems of the Banks" and is taken into consideration in the capital adequacy standard ratio calculation.

Amounts deducted from the capital in the calculation of shareholders’ equity are not considered in the calculation of risk-weighted assets, non-cash loans and contingent liabilities. In the calculation of risk weighted assets, assets subject to depreciation and impairment are carried at their carrying values less accumulated depreciation and impairment losses.

Beginning from December 31, 2004, for the calculation of the amount subject to credit risk regarding the transactions on the non-cash loans, the receivable amount from counter parties is calculated by using the conversion rates presented in Clause 1 in Article 5 of the Communiqué on “Measurement and Assessment of Banks’ Capital Adequacy Ratios”, less the specific provision amount set in accordance with the Communiqué on “Determining the Nature of Loans and Receivables and Principles and Procedures on the Allocation of Loan and Receivable Provisions”, if any.

In calculation of the amount subject to credit risks, receivables from counter parties arising from foreign currency and interest rate transactions are recognized using the conversion rates presented in the related communiqué Clause 2 in Article 5.

II. EXPLANATIONS RELATED TO CREDIT RISK

The Bank, in the credit allocation process, restricts its risk exposure by working with highly credible banks and entities considering the credit ratings for the purpose of managing its risks. Under the scope of credit risk management, the Bank grades all of its credits that are granted to real persons or entities and requires additional collaterals from its customers having high credit risks. The Bank has the policy of not granting loans/credits and/or limiting the amount of such loans/credits. The Bank's risk concentration in Turkey is high, since it operates mainly in Turkey. In loan procedure, limits are determined based on the type of loans and customers and risk and limit information is controlled periodically. For geographical regions and sectors, limit determination process is carried by the related loan departments.

Loans granted to other banks and risk limits set for the correspondent bank transactions are controlled on a daily basis. Risk concentrations are monitored systematically with the Treasury department, concerning the off-balance sheet operations based on the customers and banks.

Except for the restructured loan follow-up system determined in the related communiqué, such loans are incorporated into the new rating groups or risk weightings under the risk management systems of the banks, and new precautionary measures are taken for these processes. Since long-term commitments are more risky than the short-term commitments, risks are assorted in accordance with the Bank's risk management system.

As prescribed in the Communiqué on "Determining the Nature of Loan and Other Receivable Provisions Allocated By the Banks and Procedures and Principles of Allocating Provisions", the credit worthiness of the debtors of the loans and other receivables is monitored regularly. Credit limits are determined according to the audited statement of accounts. Guarantee factors are developed in accordance with the decision of the credit committee and updated according to the top management's initiatives and changes in the economic conditions. The Bank receives sufficient collaterals in consideration of the loans and other receivables granted. Guarantees are suretyships, immovable mortgages, cash blockages and customer or real person cheques.

When the Bank is exposed to significant credit risks, it has the tendency to cease its forward or similar type of transactions by using rights, fulfilling the requirements of the acquisitions or disposing of the acquisitions to mitigate the risk total.

Indemnified non-cash loans are subject to the same risk weight as the outstanding loans due at maturity and they are classified according to their guarantees and recognized in the non-performing loans account.

The Bank is not an active participant of the international banking sector.

As of September 30, 2008, the receivables of the Group from its top 100 cash loan customers is 19,46% of its total cash loans.

As of September 30, 2008, receivables of the Bank from its top 100 non-cash loan is 57,71% of its total non-cash loans.

As of September 30, 2008, share of cash and non-cash receivables of the Bank from its top 100 customers is 12,85% of its total balance sheet and off-balance sheet assets.

III. EXPLANATIONS RELATED TO MARKET RISK

The Bank has established market risk management operations and taken the necessary precautions in order to hedge market risk within its financial risk management purposes, in accordance with the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” issued on Official Gazette dated November 1, 2006 numbered 26333.

The Board of Directors determines the limits for the basic risk that the Bank is exposed to. Those limits are revised periodically in line with the market forces and strategies of the Bank. Additionally, the Board of Directors has ensured that the risk management division and senior management has taken necessary precautions to describe, evaluate, control and manage risks faced by the Bank.

Interest rate and exchange rate risks, arising from the volatility in the financial markets, of the financial positions taken by the Bank related to balance sheet and off-balance sheet accounts are measured, and in the computation of capital adequacy, the amount subject to VAR calculated by using the standard method (summarised below) is taken into consideration. Beside the standart method, VAR is calculated by using internal model as supported by scenario analysis and stress tests. VAR is calculated daily by three different methods which are historic simulation, Monte Carlo simulation and parametric method, and these results are also reported daily to the management.

In addition to the standard method, market risk is also calculated by internal model method (Value subject to risk), and the results are supported by scenario analysis and stress tests.

(cont'd)****IV. EXPLANATIONS RELATED TO OPERATIONAL RISK**

In the calculation of the Bank's operational risk, "Basic Indicator Method" is used. The amount subject to operational risk is calculated in accordance with Section 4 of the Communiqué on "Measurement and Assessment of the Capital Adequacy of Banks" published in the Official Gazette numbered 26333 on November 1, 2006 and this section is named as "Calculation of Operational Risk Base Amount" which came into effect as of June 1, 2007. The calculation is performed parallel to the practice within the country, by multiplying 15% of the Bank's last three years' average gross revenue with 12,5. Amount subject to operational risk is TRY 3.689.089 Thousand for the current period.

V. EXPLANATIONS RELATED TO CURRENCY RISK

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate movements in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration. Net short term and long term positions of each currency are calculated in terms of the Turkish Lira.

The Bank is not exposed to currency risks. However, potential currency risks are figured at weekly and monthly periods through the standard method. Thereby, currency risk can be closely followed. The Bank rarely enters into swap contracts against the currency risk, in case of need.

Announced current foreign exchange buying rates of the Bank as at September 30, 2008 and the previous five working days in full TRY are as follows:

	22.09.2008	23.09.2008	24.09.2008	25.09.2008	26.09.2008	29.09.2008

VI. EXPLANATIONS RELATED TO INTEREST RATE RISK

Interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by the Bank and the Bank's interest rate risk is calculated by using the general and specific interest rate risk statement in the standard method including the assets and liabilities and the capital adequacy standard ratio is taken into consideration as a part of the general market risk.

The priority of the Bank's risk management department is to avoid the effects of the interest rate volatility. Sensitivity analysis performed within this context, are calculated by the risk management department and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank. The negative effects of the fluctuations in the market interest rates on the financial position and the cash flows are minimized by revising budget targets. The Bank's financial resource costs, such as TRY bank deposit, foreign exchange accounts, repurchase agreements are determined by the Treasury Vice Presidency.

Since the Bank does not permit maturity mismatches or imposes limits on the mismatch, significant interest rate risk exposures are not expected.

VII. EXPLANATIONS RELATED TO LIQUIDITY RISK

Liquidity risk occurs when there is insufficient cash or cash inflows to meet the cash outflows fully and timely. Liquidity risk may also occur when the market penetration is not adequate, when the open positions cannot be closed immediately at the suitable prices in sufficient amounts due to barriers and break-ups in the markets.

Domestic and foreign markets are used to meet liquidity need. Low levels of liquidity needs provides an easy access for borrowing from the Turkish Republic Central Bank, İstanbul Stock Exchange, Interbank Money Market, Clearing Bank and other markets. The Bank's low ratios of bank deposits and foreign currency deposits compared to other commercial banks, with the similar balance sheet total, is an indication of having a bigger share from the market when needed. Available money market debts from the foreign market, Eurobonds held in portfolio are important potential resources of the Bank.

When funding and liquidity sources are considered, the Bank covers majority of its liquidity need through deposits. In addition, securities portfolio is mainly composed of available for sale and held to maturity securities.

k) Main guidelines of the liquidation policy of the Bank about the uncollectable loans and receivables should be disclosed:

The Bank liquidates its uncollectable receivables in 3 ways, by signing financial restructuring contract under the Law No:4743, by making payment protocols and by presenting adequate repayment schedules for the low balance receivables. Within the context of this collection policy, non-performing loans are collected in considerable amounts. Collections are firstly offset against lawsuits and expenses, interest and capital receivables from loans.

The Bank recently collects some of its receivables by acquiring debtor properties in consideration of collaterals given to loans granted. The Bank is also planning to collect its receivables in accordance with the requirements of Law No: 5569 dated on December 27, 2006 through Anadolu Yaklaşımı (protocols for non-performing loans).

Explanations on write-off policy:

In compliance with the “Procedure for Write Off and Procedures for Delayed Receivables” unrecoverable non performing loans can be written off to prevent additional legal expenses.

The Bank made Saving Deposits Insurance Funds premium payments as half of the 0.15% of the calculated liability in accordance with the amended article published in the Official Gazette dated October 5, 2002 and numbered 24897 of the communiqué on the "Mergers and Takeovers Attributable To Banks", which was published in the Official Gazette numbered 24445 on July 27, 2001. This amended article denotes that "Conditional to all merged or takeover banks' authority to accept deposits, based on the authorization given in Clause 6 in Article 15 of the Banking Act No: 4389, insurance premium liability of the taken-over bank or newly established bank merged by the combination of more than one bank is paid for two years starting from the Council's degree of the publishment date in the Official Gazette, which grants the authorization to companies merge or takeover as per the paragraph in the additional decree No: 2000/862 issued on June 1, 2000 stating that "Half of the rates defined in Article 4 of the Decree on Saving Deposits Under Insurance Guarantee and Premiums To Be Collected by the Saving Deposits Insurance Fund are applied". Based on this expression, the payment was realized on half of fifteen per ten thousand of the calculated liability amount in 2005 and as at September 30, 2006. This exception was ended as of November 2006 and the Bank has started to pay Saving Deposits Insurance Fund Premiums by using 0.15% rate without incurring any additional penalty rates starting from 2006 year-end.

- b.1.2. Saving deposits at foreign branches are excluded from the scope of Saving Deposits Insurance Fund according to the related legislation, and are subject to insurance of foreign authorities in compliance with the foreign legislations.

**V. EXPLANATIONS AND NOTES RELATED TO THE STATEMENT OF CHANGES
IN SHAREHOLDERS' EQUITY**

(1) Explanations on inflation adjustments for equity items:

As per the BRSA circular announced on April 28, 2005, inflation accounting applied in the banking system has been ceased as of January 1, 2005 in accordance with the BRSA decree numbered 1623 and dated April 21, 2005.

According to this circular, TRY 1.220.451 Thousand of inflation adjustment related to paid in capital was transferred to the "Other Capital Reserves" account, which had been recognized in "Paid-in Capital Inflation Adjustment" account before December 31, 2005. However, inflation adjustments related to other equity items are presented under the related equity item.

(2) Explanations on exchange rate differences:

Foreign currency associates recognized in accordance with the acquisition cost basis are presented in the balance sheet with their foreign currency acquisition cost multiplied by the exchange rates as of the balance sheet date. Exchange differences related to these foreign currency associates are recognized in the "Capital reserves" account under equity.

VIII. EXPLANATIONS RELATED TO THE SUBSEQUENT EVENTS

While paragraph 54 of Turkish Accounting Standards 39-Financial Instruments: Recognition and Measurement as published by Turkish Accounting Standards Board (“TASB”) permit reclassification of securities from Available for Sale Portfolio to Held to Maturity Portfolio, with the Communiqué 105, dated October 31, 2008 and published in the Official Gazette 27040, TASB, made an amendment related to Article 50 of Turkish Accounting Standards 39-Financial Instruments: Recognition and Measurement and also permitted the reclassification of securities recognized as Financial Assets at Fair Value Through Profit and Loss Portfolio to Held to Maturity Securities Portfolio. In addition, Turkish Accounting Standards Board declared that all reclassification transactions made subsequent to October 31, 2008, will take effect on the date of such transactions performed.

In order to avoid the effect of market fluctuations on securities portfolio, in October 2008, the Bank reclassified TRY 7.977 Million in total; TRY 378 Million from Financial Assets at Fair Value Through Profit and Loss and TRY 7.599 Million from Available for Sale Securities portfolio to Held to Maturity Securities portfolio.

Amounts presented in the Explanations Related to Currency Risk table in the fourth section, are prepared based on foreign exchange rates of the Bank as of the balance sheet date. Important fluctuations affecting financial markets and foreign exchange rates occurred in the period after the balance sheet date; the New Turkish Lira devaluated by 28,75% against USD, devaluated by 12,53% against EUR and the interest rate of the indicator government bond increased from 19,42% to 22,51%.
